

Political Structure

Macao People Governing Macao with a High Degree of Autonomy

Macao became a Special Administrative Region (SAR) of the People's Republic of China on 20 December 1999. The MSAR's constitutional document, the Basic Law of the Macao Special Administrative Region, also came into force on the same day.

The Basic Law of the Macao Special Administrative Region establishes, at the highest level of legal authority, the guidelines and policies of the Central People's Government regarding Macao. It stipulates the system to be practised in Macao, and lays down the political and administrative framework of the MSAR for 50 years from 1999.

The systems and policies of the MSAR – including its social and economic systems; safeguards for the fundamental rights and freedoms of its residents; the executive, legislature and judiciary; and Government policies – are all based on the provisions of the Basic Law.

Under the Basic Law, the MSAR is entitled to a high degree of autonomy in all areas except defence and foreign affairs. It enjoys executive autonomy, legislative autonomy, an independent judiciary and the right to final adjudication. The executive and the legislature of the MSAR comprise only permanent Macao residents.

The MSAR maintains the status of free port and independent tariff region, along with the free flow of capital and the freedom of operations of financial institutions. It may, under the name “Macao, China”, independently maintain, develop relations with and sign agreements with various countries, regions and international organisations in fields such as the economy, trade, finance, transportation, communications, tourism, culture and sports.

The principles of “One country, two systems”, “Macao people governing Macao” and a high degree of autonomy have been infused into Macao's social and political culture.

“Macao people governing Macao” means that the people of Macao are in charge of their own affairs. Macao's Chief Executive, principal officials, members of the Executive Council and the Legislative Assembly, the President of the Court of Final Appeal and the Prosecutor General shall be permanent residents, and some of these positions may only be assumed by permanent residents of Macao who are also Chinese citizens.

“A high degree of autonomy” means that the National People's Congress (NPC) authorises the MSAR to exercise a high degree of autonomy in accordance with the Basic Law, and that the central government will not interfere in affairs that fall within the autonomy of the MSAR. The MSAR enjoys executive, legislative and independent judicial power and the power of final adjudication, as well as other powers authorised by the NPC, the Standing Committee of the NPC and the Central People's Government.

However, a high degree of autonomy does not mean full autonomy. In order to maintain a unified China and to safeguard the sovereignty and territorial integrity of the country, the Central People's Government retains certain essential powers – for example, the Central People's Government is responsible for the MSAR's foreign affairs and defence.

Chief Executive

The Chief Executive is the head of the MSAR and is accountable to the Central People's Government and the MSAR.

The Chief Executive is charged with the responsibility of:

- Leading the MSAR Government;
- Implementing the Basic Law of the Macao Special Administrative Region and other laws applicable to Macao subject to the Basic Law of the Macao Special Administrative Region;

to the law; and

- Handling petitions and complaints.

The Chief Executive of the first and second MSAR Governments was Edmund Ho Hau Wah. The Chief Executive of the third and fourth MSAR Governments was Chui Sai On. The Chief Executive of the fifth MSAR Government is Ho Iat Seng.

The Executive Council

The Executive Council assists the Chief Executive in policymaking. Article 58 of the Basic Law of the Macao Special Administrative Region stipulates that, except for the appointment, removal and disciplining of officials and the adoption of emergency measures, the Chief Executive shall consult with the Executive Council before making important policy decisions, introducing bills to the Legislative Assembly, formulating by-laws or dissolving the Legislative Assembly. If the Chief Executive does not accept a majority opinion of the Executive Council, the specific reasons should be put on record.

Article 57 of the Basic Law of the Macao Special Administrative Region stipulates that the Executive Council shall be composed of 7 to 11 Chinese citizens who are permanent residents of the MSAR. The Chief Executive shall appoint them from among principal officials, members of the Legislative Assembly and other public figures. The Chief Executive shall decide the appointment or removal of Executive Council members. The term of office of each member shall not last beyond that of the Chief Executive who appoints them, but existing members shall remain in place until the new Chief Executive takes office.

Article 58 of the Basic Law of the Macao Special Administrative Region stipulates that the Executive Council shall be presided over by the Chief Executive and meet at least once a month. The proceedings of the Executive Council meetings are confidential, but a spokesperson announces important decisions to the public.

The first- and second-term Chief Executive Edmund Ho appointed 10 members to the Executive Council in both his terms.

The Chief Executive of the third and fourth MSAR Governments, Chui Sai On, appointed 11 members to the Executive Council during his two terms in office.

The Chief Executive of the fifth MSAR Government, Ho Iat Seng, also appointed 11 members to the Executive Council: one Secretary, two members of the Legislative Assembly and eight public figures.

The Legislature

According to the Basic Law of the Macao Special Administrative Region, the MSAR enjoys legislative autonomy and the Legislative Assembly is its sole legislature.

The Macao SAR has full legislative autonomy, which embodies and guarantees Macao's high degree of autonomy. The legislative power of Macao is exercised solely by the Legislative Assembly.

No other body or entity has legislative power. Laws formulated by the Legislative Assembly shall conform to the Basic Law of the Macao Special Administrative Region.

The Legislative Assembly exercises its legislative power and supervisory power under the Basic Law of the Macao Special Administrative Region and the Rules of Procedure of the Legislative Assembly.

Legislative Authority

The term “legislative authority” broadly refers to the power to formulate general and abstract laws that are applicable to the MSAR and its residents. More specifically, the powers of the Legislative Assembly include the right to make laws, the right to amend laws, the right to suspend the execution of laws, and the right to abolish laws.

According to the Basic Law of the Macao Special Administrative Region and the Rules of Procedure of the Legislative Assembly, Legislative Assembly members and the Government have the right to introduce bills and propose amendments. The Government has exclusive sponsorship rights in the four following respects: electoral law for the Legislative Assembly, public income and expenditure, political structure and Government operation.

Bills passed by the Legislative Assembly shall come into effect only after being signed and promulgated by the Chief Executive.

Supervisory Authority and Other Responsibilities

The responsibilities of the Legislative Assembly include: examining and passing budgets introduced by the Government; examining the Government’s reports on budget implementation; deciding on Government motions on taxation; approving debts to be taken on by the Government; and debating the Chief Executive’s policy addresses.

The term “issue of public interest” encompasses all aspects of Macao society; the Legislative Assembly may hold meetings to discuss such issues, and may require relevant Government officials to attend those meetings.

The Legislative Assembly receives and handles residents’ complaints; it receives complaints concerning the existing legal system, but it does not directly handle individual cases or applications for legal consultations.

The Legislative Assembly also has the authority to impeach the Chief Executive.

When exercising the above-mentioned powers, the Legislative Assembly may summon, as required, persons to testify or give evidence.

Moreover, members of the Legislative Assembly are also entitled to address enquiries regarding the Government’s work.

Composition and Term of Office of the Legislative Assembly

Members of the Legislative Assembly shall be permanent residents of the MSAR. The majority of

them are elected and the term of office, except for the first term, is four years.

The first Legislative Assembly of the MSAR had 23 members, eight of whom were elected directly, eight indirectly and seven appointed by the Chief Executive. Their term of office expired on 15 October 2001. The second Legislative Assembly had 27 members, 10 of whom were elected directly, 10 indirectly and seven appointed by the Chief Executive. Their term expired in 2005. The third and the fourth Legislative Assemblies likewise had 29 members, 12 of whom were elected directly, 10 indirectly and seven appointed by the Chief Executive. The fifth Legislative Assembly has 33 members, 14 of whom are elected directly, 12 indirectly and seven appointed by the Chief Executive; so too will subsequent Legislative Assemblies. However, the aforementioned does not apply to the amendments made through legal procedures to the method for forming the Legislative Assembly of the Macao Special Administrative Region.

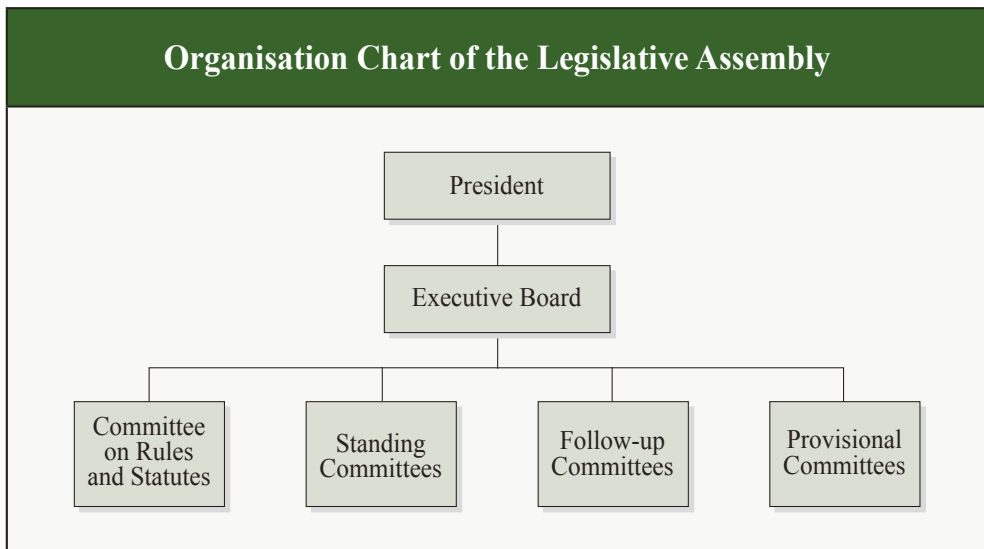

The Legislative Assembly has one president and one vice president, elected by and from among its members. The president and vice president shall be permanent Chinese residents who have lived continuously in Macao for at least 15 years.

Structure and Operation of the Legislative Assembly

The structure of the Legislative Assembly comprises the president, the Executive Board, the Committee on Rules and Statutes, standing committees, follow-up committees and provisional committees. The president represents the Legislative Assembly and leads and coordinates the assembly's work. The president performs his or her duties in accordance with the Basic Law of the Macao Special Administrative Region and the Rules of Procedure of the Legislative Assembly.

Each Legislative Assembly usually serves four sessions. Each session lasts one year, normally from 16 October to 15 August of the following year. The Legislative Assembly uses Chinese and Portuguese, Macao's two official languages.

Organisation Chart of the Legislative Assembly

Administrative Agencies and Technical Support Offices

The administrative agencies of the Legislative Assembly include the president, the Executive Board and the Administrative Committee, all of which are responsible for the administrative affairs of the Legislative Assembly.

The Legislative Assembly's technical support offices report directly to the Executive Board. If the term of the Legislative Assembly expires or if the Legislative Assembly is dissolved, the Executive Board shall retain its responsibilities until the first meeting of the new Legislative Assembly. The technical support offices are led by the president and the Executive Board, and they report directly to the secretary-general. The technical support offices are divided into sections to handle different portfolios and to provide the administrative agencies and members of the Legislative Assembly with technical and administrative support.

The Legislative Assembly's Public Feedback System

The Legislative Assembly has established a public feedback system to collect opinions, suggestions and criticisms concerning legislation, Government activities, policies and other issues of public interest. The system also aims to explain the work of the Legislative Assembly and help citizens to exercise their rights to submit petitions and make complaints.

Citizens may voice their opinions via the feedback system in person or by telephone, post, fax or e-mail. Public reception is available during normal hours of government service.

In addition, legislators receive citizens by appointment at the Legislative Assembly building from noon to 1pm on Mondays, Wednesdays, and Fridays. Legislators make themselves available according to a roster compiled by the Legislative Assembly.

Electoral Law

Macao's electoral system is based on Law No. 12/2000 – the Voter Registration Law (as amended by Law No. 9/2008) and Law No. 3/2001 – the Legislative Assembly Election Law of the Macao Special Administrative Region (as amended by Law Nos. 11/2008, 12/2012 and 9/2016). The two laws govern the direct and indirect elections of the Legislative Assembly, and the appointment of legislators as prescribed in Annex II (1) of the Basic Law.

The Voter Registration Law contains 60 articles, which govern the voter registration procedures for natural persons and legal persons, whereas the Legislative Assembly Election Law contains 222 articles, which govern the direct and indirect elections of members of the Legislative Assembly.

Electoral System for the Legislative Assembly

Under the Legislative Assembly Election Law, there are direct and indirect elections.

In direct elections, any individual aged 18 years or older who is a permanent resident of the MSAR may, after registration under the Voter Registration Law, vote for the 14 directly elected members of the Legislative Assembly.

In indirect elections, representatives of legal persons who are confirmed as members of the relevant sectors for at least four years may, after being registered with and given legal personality by the Identification Services Bureau for at least seven years under the Voter Registration Law, vote for the 12 indirectly elected members of the Legislative Assembly.

Under the two election systems, the method used for converting the number of votes into seats in the Legislative Assembly is as follows: the first candidate on each list receives a quotient equal to the number of votes recorded for that list. The second candidate on each list receives a quotient equal to half the number of votes recorded for that list. The third candidate on each list receives a quotient equal to a quarter of the number of votes recorded for that list, and so on. Legislative Assembly seats are then awarded to the candidates who, among all lists, have the highest quotients. As regards the assignment of the final seat: if two candidates from different lists have equal quotients, the seat shall be given to the candidate from the list that has yet to win a seat. If both lists have won one or more seats, the seat shall be given to the list that received the most votes. If both lists have won the same number of votes, the winner of the seat shall be determined by the open drawing of lots.

The Chief Executive shall appoint seven legislators to the Legislative Assembly within 15 days of receiving the final verified results, as stipulated in Clause 2 of Article 133 of the Legislative Assembly Election Law.

Electoral Affairs Commission for the Legislative Assembly Election

The Electoral Affairs Commission for the Legislative Assembly Election is responsible for promoting, coordinating and supervising the elections of the Legislative Assembly.

The members of the Electoral Affairs Commission for the Legislative Assembly Election are appointed by the Chief Executive. The commission has one chairman and at least five members, appointed from among appropriately qualified permanent residents of the Macao SAR. The Public Administration and Civil Service Bureau provides support to the commission.

The Judiciary

The courts of the MSAR have judicial autonomy. They are subordinate only to the law and are guaranteed to be free from any interference. The MSAR has a Primary Court, a Court of Second Instance and a Court of Final Appeal. The power of final adjudication is vested in the Court of Final Appeal.

The Court of First Instance may, when necessary, establish special courts. The previous criminal prosecution system has been maintained since the establishment of the MSAR.

The MSAR also has an Administrative Court, which is responsible for administrative and tax litigation. Defendants and plaintiffs who find the ruling of this court unsatisfactory can file an appeal to the Court of Second Instance.

Judges at all levels are appointed by the Chief Executive on the recommendation of an independent commission composed of local judges, lawyers and prominent members of the community. The Chief Executive appoints the presidents of the courts from among the judges.

The President of the Court of Final Appeal shall be a Chinese citizen who is a permanent resident of the MSAR. Any appointment or removal of the President of the Court of Final Appeal shall be reported to the Standing Committee of the NPC for the record.

The Public Prosecutions Office is independent and free from interference, as defined by law.

The Prosecutor General shall be a Chinese citizen who is a permanent resident of the MSAR. He or she shall be nominated by the Chief Executive and appointed by the Central People's Government. Other prosecutors shall be nominated by the Prosecutor General and appointed by the Chief Executive. The structure, powers, functions and remit of the Public Prosecutions Office are prescribed by law.

Any person from another province, autonomous region or municipality must apply for an entry permit to enter Macao. Municipal Services

On 1 January 2019, the Municipal Affairs Bureau was established according to Law No. 9/2018, as a municipal organisation which is not an organ of political power. It includes the Municipal Administration Committee and the Municipal Affairs Consultative Committee.

As a management body of the Municipal Affairs Bureau, the Municipal Administration Committee is responsible for leading the daily operations of the Municipal Affairs Bureau and performing other duties as assigned by law, including providing services related to culture, recreation, environmental hygiene, food safety and greening in accordance with the law, with a view to improving residents' quality of life.

As a consultative body of the Municipal Affairs Bureau, the Municipal Affairs Consultative Committee comprises representatives of different sectors of the community, who listen to residents' opinions on municipal affairs, provide opinions and make recommendations to the Municipal Administration Committee, or to the Government through the Municipal Administration Committee, so that the Municipal Affairs Bureau and the Government can more effectively serve the public.

The Municipal Affairs Bureau holds public sessions every month to allow Macao residents to give suggestions and raise queries regarding the bureau's duties and functions. Ten public sessions were held in 2022 (though sessions scheduled for June and July were cancelled due to the pandemic). The Municipal Affairs Bureau management also hosts community seminars in various community centres and districts, to introduce municipal works in the districts. Civil Service System

The general eligibility requirements for civil servants are that they are permanent residents of the MSAR, who are between 18 years and 64 years old; possess relevant educational qualifications or work experience and are capable of performing the roles required; have no criminal record or other conditions as laid down by law that would render a person inappropriate for the post or job concerned on a full-time or part-time basis; and are of sound health and mind.

Civil servants are recruited either by appointment or on contract terms. The promotions and relocations of civil servants are prescribed by law. Civil servants who breach disciplinary rules may be sanctioned by written warnings, fines, suspension, forced retirement or dismissal. Concerning the continued service, appointment and employment of civil servants, under Articles 98 and 99 of the Basic Law of the Macao Special Administrative Region, Macao's serving civil servants – including the police and supporting members of the judiciary – remained in employment after the establishment of the MSAR. They may remain in the civil service and retain their seniority with pay, allowances, benefits and conditions of service no less favourable than before. The Government shall pay such civil servants, or their dependents, all pensions and allowances due to them on terms no less favourable than before, and irrespective of their nationality or place of residence.

The Government may employ Portuguese and other foreign nationals previously employed in the civil service who are permanent residents of the MSAR to serve as public officials in Government departments at all levels, unless otherwise prohibited by the Basic Law of the Macao Special Administrative Region. The Government may also employ Portuguese and other foreign nationals as advisers or to fill professional and technical posts. These persons shall be employed only in their individual capacities and shall be responsible only to the Government.

Civil Servant Training

The Civil Servant Training Centre, under the Public Administration and Civil Service Bureau, is responsible for studying, developing and coordinating the civil servant training system, promoting the culture of continuous learning among civil servants, and organising and arranging training activities within the scope of central management for promotion of civil servants. The centre also organises various training activities to enhance the overall capability of civil servants at all levels, and special training courses according to departments' specific needs.

The Government attaches great importance to the training and development of civil servants. In accordance with the Rank and Grade System for Civil Servants, the Government has included training as an important requirement for promotion of civil servants. Civil servants enjoy corresponding rights and undertake obligations to participate in training. There are two types of training courses for promotion: elective and compulsory courses, with emphasis on developing national affairs; and e-governance training to further nurture civil servants' capabilities.

e-Governance

The Government has continued promoting e-governance and aligning with the Electronic

Governance Law, to gradually implement data interconnections among departments that will further streamline administrative processes and provide more convenient public services, achieving remarkable results.

Regarding internal management, all Government departments have adopted the Document and Case File Management System, achieving digitalisation of official correspondence between public departments and digitalised management of internal document flows.

In 2022, the Macao Civil Servants Exclusive Mobile App was launched, to migrate the functions of the Civil Servant Administration and Service Platform (G2E) and the e-services of the Pension Fund to a single mobile app, which allows civil servants to centrally and conveniently access the e-services related to their public service.

Regarding external services, the Government has launched an upgraded version of “Macao One Account”, with more features that focus on users' experience.

Among the upgrades, the data interconnection between departments provides residents with information on emergencies, civil protection and major news, as well as important information on the situation at border checkpoints and weather news.

During the pandemic in 2022, this interconnection enabled the precise and prompt dissemination of important and urgent government information to residents, and clarified false information in a timely manner; a "My Photo" function was added so that residents do not need to submit physical photos when applying for public services online or offline; the “Macao One Account” Professional Licence function was introduced to allow users to quickly locate and use their professional licences; and the registration service for activities and facilities within premises was introduced.

The scope of “Macao One Account” has been expanded to also include private institutions and judiciary sectors, and it provides about 180 government services such as online payment of water, electricity, natural gas and telecommunications bills, as well as filing of court litigation documents and payment of litigation fees.

The Government has also introduced electronic vehicle documentation and services, for public convenience. Vehicle owners can pay their vehicle tax and traffic fines related to their vehicles via "My Vehicle", as well as present proof of documents such as driving licence and car insurance to law enforcement officers via One-stop Public Services.

The MSAR Government continued enhancing the e-governance infrastructure and supporting facilities, consolidating the construction of a dedicated cloud computing centre for Macao, thus providing sufficient computing power, storage space and security protection for departments, to support the development of e-governance projects in a secure and stable operating environment, as well as sharing and opening up data, to effectively enhance the overall development of e-governance in the MSAR.

Building a Quality Public Service Network with e-Governance Development

Optimisation of public services is the core concept of the MSAR Government's reform. Through

ongoing process improvements and technological innovation, the Government provides the public with better and more effective public services. The Integrated Government Services Centres and the Islands District Integrated Government Services Centre are part of the Government's efforts to build a quality and integrated public service network, enabling citizens to access public services in one place.

In 2022, the two service centres provided over 300 services to 26 public departments, with a total of 786,000 cases handled, 538,000 of which were handled in the Government Integrated Service Centre, while 248,000 cases were handled in the Islands District Integrated Government Services Centre. The Government Integrated Service Centre and the Islands District Integrated Government Services Centre received 676,000 and 342,000 visitors, respectively, totalling 1,018,000 visitors.

Official Languages

In accordance with Article 9 of the Basic Law of the Macao Special Administrative Region, in addition to the Chinese language, Portuguese may be used as an official language by the executive authorities, the legislature and the judiciary of the MSAR.

Awarding of Decorations, Medals and Merit Certificates

To commend individuals and organisations for their outstanding performance in terms of personal achievements, contributions to the community or service to the MSAR, in November 2001 Chief Executive Edmund Ho promulgated By-law No. 28/2001, which established rules for awarding decorations, medals and merit certificates to them. It stipulated four categories of decorations and merit certificates in the MSAR: the Decoration of Honour, Medal of Merit, Medal for Distinguished Services and Certificate of Merit.

As of 2022, the Chief Executive had signed administrative orders to award decorations of honour, medals and certificates to 22 batches of individuals and entities.

Flag and Emblem of the MSAR

The flag of the MSAR has identical patterns and colours on both sides, with the five stars, lotus flower, bridge and seawater design on the front and back. The rectangular flag has a green background and a 3:2 length-height ratio. A white, three-petal lotus flower is in the centre of the flag. Five golden stars, including a larger one in the middle, form an arch over the lotus flower. Below the lotus flower, a white bridge and seawater are represented as green and white stripes (See Appendix II of Law No. 6/1999).

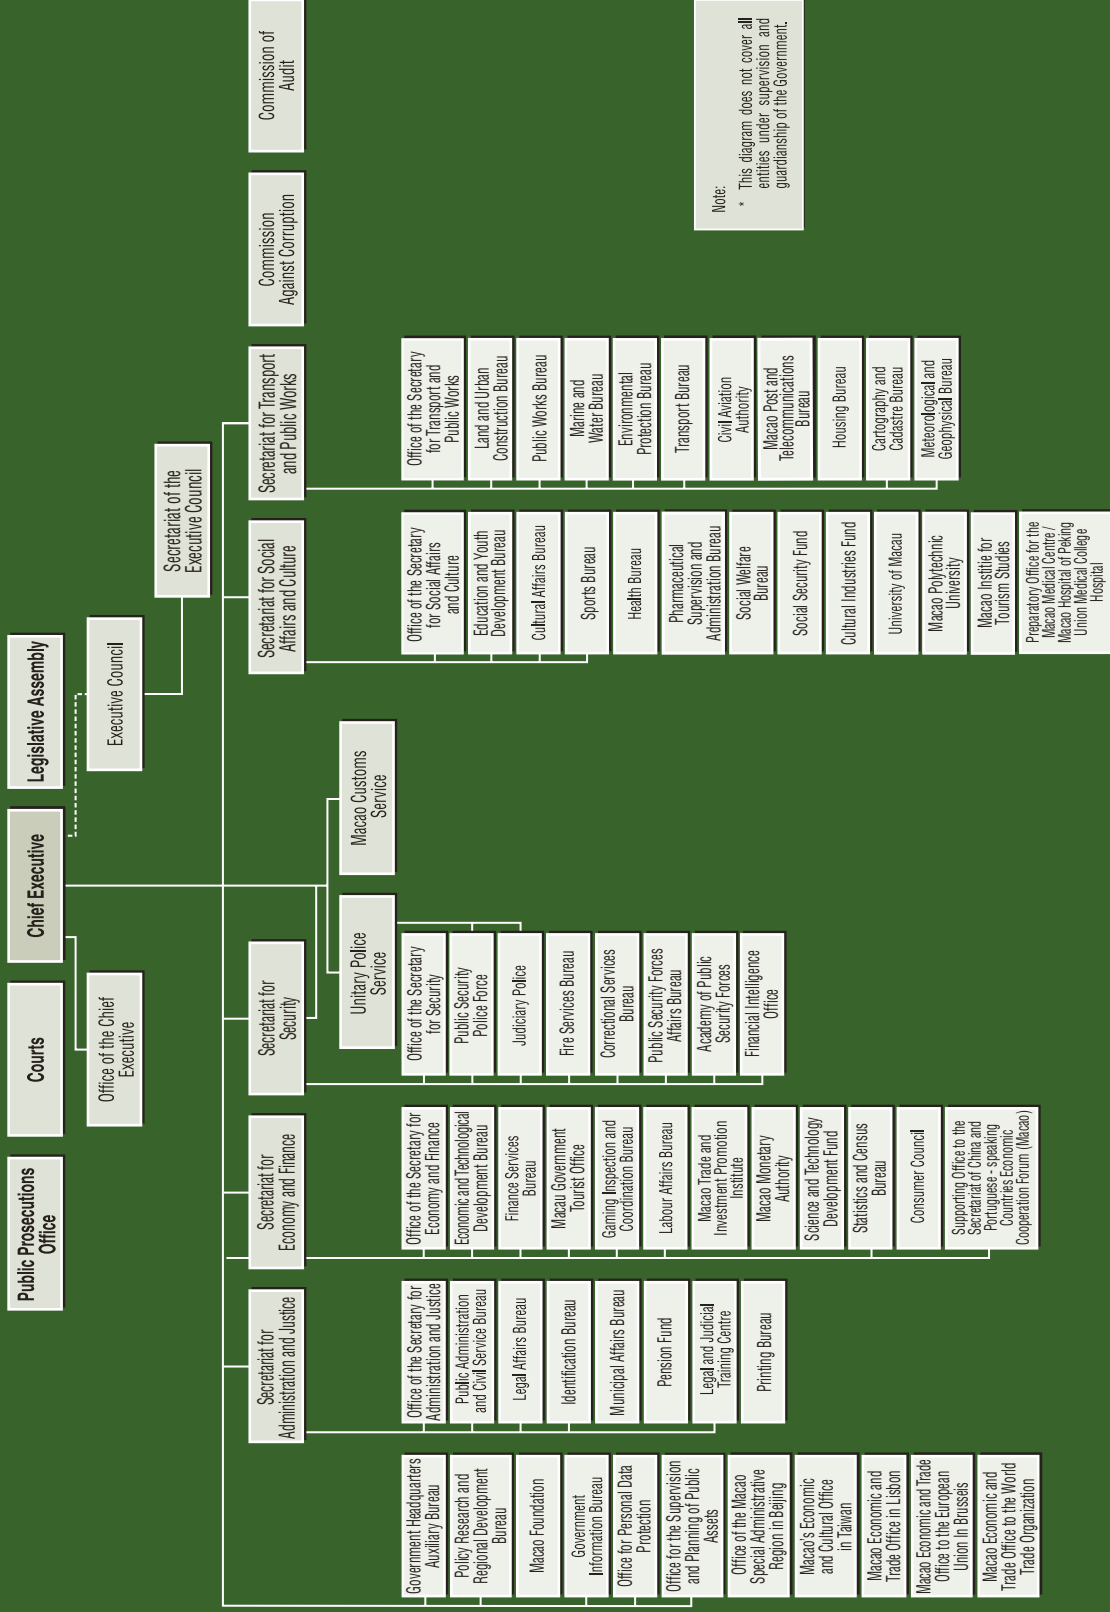

The Flag of the MSAR

The circular MSAR emblem consists of a narrow green border, a ring of characters on a white background, a green inner circle and elements including stars, a lotus flower, a bridge and seawater. The outer ring of characters lies between the narrow green border and the green inner circle. In the upper half of the ring of characters, 14 Traditional Chinese characters meaning “The Macao Special Administrative Region of the People’s Republic of China” are set in a standard traditional font, evenly distributed along the width of the arch. The lower portion of each character points to the centre of the emblem. In the lower half of the ring of characters, the Portuguese word “Macao” is printed in a standard font. The letters are evenly spaced, with the upper portion of each letter pointing to the centre of the emblem. Both the Chinese and Portuguese characters are distributed symmetrically on opposite sides of a vertical axis through the emblem. A white lotus flower with three petals is in the centre of the green inner circle. Above the lotus flower, five golden stars, of which the middle one is largest, radiate from the centre of the emblem. The lower points of the stars are directed at the centre of the emblem. Below the lotus flower, a white bridge and seawater are represented as green and white stripes.
